Q2

Please comment on the FAS Annual Rule.

Please renew the FAS and take the steps to update these and make the rules more consistent. I also believe more of these areas could be open to public hunting, even if a special permit (covered with application fees) is required. Good example is the FAS south of Ennis along the Madison River. Full of deer but no hunting and no one is there in the winter. Thanks.

Q2

Please comment on the FAS Annual Rule.

U recommend the commission renew the current FAS Annual Rule and fees for one year to allow FWP to complete development of consolidated public use and fee system.

Q2

Please comment on the FAS Annual Rule.

Two phrases in particular concern me, in Alternative 2: "landowner tolerance" and "localized social issues." Both of these could easily be based on misinformation and misunderstanding--and indeed they often are. Actual effects of wolf presence can be very different from how wolf presence is perceived. Reality should govern wolf management, not perception. I urge FWP to find more precise language that expresses genuine effects of wolves, and excludes what can easily become wild flights of imagination.
